FAKE LOGIN / CREDENTIAL HARVESTING

TRAINING EXAMPLE ONLY · FICTIONAL COLLEGE · FICTIONAL PEOPLE

FROM (DISPLAY NAME)	IT Support Team
SENDER ADDRESS	**support@greenfield-account.invalid**
TO	Staff Member
SUBJECT	**Your College Email Account Requires Verification**

Dear Staff Member,

Our system has detected an unusual sign-in attempt on your college email account.

To prevent temporary account suspension, please verify your account details using the link below.

Verify your account: https://greenfield-login.invalid/verify

Failure to complete verification within 30 minutes may result in restricted access.

Thank you,
IT Support Team

RED-FLAG CALLOUTS

01 · SENDER ADDRESS
The sender uses **greenfield-account.invalid**, an unverified domain rather than a known IT address.

02 · LINK DESTINATION
The visible link leads to **greenfield-login.invalid**. Do not trust a link because its wording sounds official.

03 · FEAR TACTIC
A warning about account suspension is designed to make the recipient act quickly.

04 · CREDENTIAL REQUEST
The linked page may collect a username, password or other sign-in details.

05 · ARTIFICIAL DEADLINE
The 30-minute limit reduces the chance that staff will verify the alert.

WHAT TO DO Do not click or enter credentials. Open the college login page using a saved bookmark or known address, then contact IT through an established channel.

All names, addresses, institutions, amounts and links in this sample are fictional. The .invalid domain is reserved for invalid examples. No real person or organisation was contacted or targeted. Do not click or visit the example links.
