RED-FLAG CALLOUTS

01 · SENDER ADDRESS
The message comes from **parcel-alert.invalid**, not a delivery company address you have independently verified.

02 · UNEXPECTED PRETEXT
It does not identify a recognised carrier, tracking number or specific order.

03 · PAYMENT REQUEST
An unexpected redelivery fee can be used to collect payment-card details.

04 · LINK DESTINATION
The link goes to **parcel-update.invalid**. Do not use a link in an unexpected delivery message.

05 · DEADLINE PRESSURE
The 24-hour threat encourages quick action instead of checking the shipment.

WHAT TO DO Do not click or pay. If you are expecting a parcel, check its status using the carrier's official app or website that you open independently.

All names, addresses, institutions, amounts and links in this sample are fictional. The .invalid domain is reserved for invalid examples. No real person or organisation was contacted or targeted. Do not click or visit the example links.
